

**100% Green, Organic, All-Purpose  
Commercial and Industrial Cleaner**  
PATENTED TECHNOLOGY – 100% ORGANIC

HAZMAT, OSHA, WHMIS exempt, CFIA approved  
and 100% made from renewable resources

## Rapid All All-Purpose Jan-San and Industrial Cleaner

**Jan-San and Industrial Cleaner** is a powerful, all-natural, biodegradable, pH neutral cleaner. Rapid All combines naturally occurring microbes that remediate oil, grease, and all kinds of dirt with a potent organic compound derived from the forestry industry for effective dual-action cleansing that's safe for all.

### **Product Benefits:**

1. Rapid All, All-Purpose Jan-San and Industrial Cleaner is a **powerful** cleaning and remediating product. It effectively cleans, breaks down, and eliminates organic materials such as:

- Fats
- Grease
- Oil & synthetics
- Heavy dirt
- Grime

Rapid All kills and controls odours in bathrooms, garbage disposal units, etc.

Rapid All reduces the “slip” coefficient on commercial floors, even when wet.

### **2. Reduce your carbon footprint:**

Rapid All is a simple cleaning solution, a single and “truly” green product that:

- Replaces virtually all chemical cleaners including acids and other harsh chemicals.
- Deep cleans below the surface, not only on surface like traditional chemicals.
- Acts as a remediation agent.
- Ships in powder form and mixes with cold water, reducing shipping weight, storage space, and hot water use.
- Eliminates the use of multiple products and blending stations.

Just mix Rapid All with cold water and start spraying, mopping, scrubbing...It doesn't get any simpler!

**3.** Rapid All is made from all natural renewable resources and is totally **safe** for humans, animals, plant life and the environment.

- VOC-free (volatile organic compound)
- Phosphate-free
- PH neutral
- Additive-free (fragrances & colorants)
- Non-toxic
- Non-flammable
- Hypoallergenic
- Non-irritating to eyes and skin (will not irritate an open wound; not even harmful if swallowed)
- Requires no protective equipment for use
