

TRUE EFFECTS™ Hand & Skin Shield™ HOTELS

PROTECT YOUR HANDS & SKIN WITH WORLD'S MOST SERIOUS SKIN BARRIER CREAM

One of the main risks of working in the janitorial / hotel industry is the use of harsh cleaners and chemicals on a daily basis that cause serious damage to hands and skin. TRUE EFFECTS™ Hand & Skin Shield™ is the World's Most Serious Skin Barrier Cream on the market by far.

Once TRUE EFFECTS™ Hand & Skin Shield™ is applied, it absorbs into the skin and provides a unique barrier that continues to protect for 4 hours plus. TRUE EFFECTS™ Hand & Skin Shield™ also moisturizes the skin after repeated washings, and protects from the effects of soaps, cleaners, oils and grease, as well as many other chemicals that you come into contact with daily, that penetrate skin and causes long term skin problems, resulting in loss of productivity and even loss of work time.

TRUE EFFECTS™ Hand & Skin Shield™ can be used in a wide range of industries to protect the hands and skin from daily damage.
