

TRUE EFFECTS™ Hand & Skin Shield™ PRINTING PROFESSIONALS

PROTECT YOUR HANDS & SKIN WITH WORLD'S MOST SERIOUS SKIN BARRIER CREAM

Printing professionals come in contact with a wide variety of skin contaminants. Printer inks, dyes and pigments are difficult to remove without abrasive cleaners, and the continuous handling of paper can draw out moisture from the skin. TRUE EFFECTS™ Hand & Skin Shield™ can help!

TRUE EFFECTS™ Hand & Skin Shield™ is the World's Most Serious Skin Barrier Cream on the market by far. Once TRUE EFFECTS™ Hand & Skin Shield™ is applied, it absorbs into the skin, and provides a unique barrier that continues to protect for 4 hours plus.

TRUE EFFECTS™ Hand & Skin Shield™ moisturizes the skin after repeated washings, and protects from the effects of soaps, cleaners, oils and grease, as well as many other chemicals that you come into contact with daily, that penetrates skin and cause damage to hands. This damage potentially causes long term skin problems, resulting in loss of productivity and even loss of work time.

SAFE FOR ALL TYPES OF SKIN • ENVIRONMENTALLY FRIENDLY
