

# TRUE EFFECTS™ Hand & Skin Shield™ VETERINARY PROFESSIONALS

## PROTECT YOUR HANDS & SKIN WITH WORLD'S MOST SERIOUS SKIN BARRIER CREAM

Veterinary professionals and animal care workers are in continuous contact with a wide variety of animals daily. Using plastic or latex gloves make it difficult to handle pets, as gloves pull their fur as well as make the hands sweat and lose moisture.

Repeated hand washings and constant use of alcohol based anti-bacterial hand cleaners add to the problem, causing damage to hands and skin, making them cracked, irritated, and even unsightly! TRUE EFFECTS™ Hand & Skin Shield™ can help!

TRUE EFFECTS™ Hand & Skin Shield™ is the World's Most Serious Skin Barrier Cream on the market by far. Once the product is applied, it absorbs into the skin and provides a unique barrier that continues to protect for 4 hours plus even after repeated washings.

TRUE EFFECTS™ Hand & Skin Shield™ also moisturizes and protects from the effects of soaps, cleaners, oils and grease, as well as many other chemicals that you come into contact with daily, that penetrate unprotected skin and cause damage to hands. This damage can result in loss of productivity and even loss of work time.

TRUE EFFECTS™ Hand & Skin Shield™ also prevents chemical staining of skin and eliminates odours on hands and skin that would normally be difficult to remove.

WORKS LIKE AN INVISIBLE GLOVE

HELPS GUARD AGAINST HUNDREDS OF SKIN IRRITANTS & PLANT OILS LIKE POISON IVY/OAK
